TOWNSHIP

HISTORY OF LYNN TOWNSHIP.

Lynn Township was first settled by Michael Fraker, on Section 28, before the Black Hawk war. At the commencement of hostilities he went to Henderson for safety, returning when peace was restored. Mr. Dushell and Peter Hager settled in the Township at a very early day. Lynn Township is a very fine body of rolling prairie, well watered and timbered. Its inhabitants are alive and wholesome, with plenty of energy and ambition. Any community will prosper with men in it like James Soles, O. M. Green, the Gibbs', and many more we might mention. A very fine Town Hall is situated in the center of the Township, near the residence of James Soles. Our views show the best improvements and speaks well for the enterprise of its industrious inhabitants.
